Commenting on the performance, Mr. R Subramaniakumar, MD&CEO, RBL Bank said "We have completed H1 FY23 on a satisfactory note on all fronts. H1FY23's profitability over H1FY22 is substantially improved. The advances growth is starting to gain momentum and we expect to see this continue. Granular deposit growth is picking up momentum and asset quality continues to be stable, with GNPA also trending down over earlier periods. Going forward our focus would be to consolidate, leverage and optimize our existing platform to accelerate profitable growth of the balance sheet. We will continue to focus on our key niche areas of cards and microfinance, while accelerating the diversification across more secured retail products by launching them in the next few months".
